Ad-hoc release pursuant to Art. 53 LR

Strong order intake and sales development in 2021

- **Bystronic increased its order intake by 51% thanks to its innovative product and service portfolio and favorable market dynamics**
- **All regions contributed to the 17% sales growth**
- **Due to challenges in the supply chains, Bystronic expects an operating result (EBIT) of CHF 70 million**

Key figures (preliminary and unaudited) – continuing operations

CHF million	12M 2021	12M 2020	in %	in % CER ¹
Order intake	1,175.5	777.4	51.2	51.3
Net sales	939.3	801.3	17.2	16.6
Total revenue ²	1,009.0	791.0	27.6	27.0

¹ at constant exchange rates

² net sales plus changes in inventories and own work capitalized

Zurich, February 4, 2022 – In the 2021 financial year Bystronic achieved strong growth, increasing order intake by 51.2% to CHF 1.2 billion and net sales by 17.2% to CHF 939.3 million. The EMEA, Americas, and APAC regions as well as the service business continued to develop favorably also in the second half of the year, while the momentum in China slowed down.

In the second half-year the situation on procurement markets deteriorated. This led to pandemic-related increases in supply chain costs, especially for components and shipping. Thanks to its strong regional presence, Bystronic was nevertheless able to successfully ensure deliveries and installations at the customers' premises. As part of reassessments, Bystronic also recognized provisions totaling CHF 6 million. For the full year, Bystronic expects an operating result (EBIT) of CHF 70 million.

Alex Waser, CEO of Bystronic, says: "Our order intake and sales development clearly demonstrate that our product and service portfolio is consistently aligned with the needs of our customers. With our focus on innovation and thanks to the investments in our service business, we are confident that we will continue to grow in 2022 and increase profitability as the global supply chain situation eases."

Bystronic will publish its full Annual Report on March 15, 2022.

About Bystronic

Bystronic (SIX: BYS) is a leading global technology company in the field of sheet metal processing. The focus is on the automation of the complete material and data flow of the cutting and bending process chain. The intelligent networking of laser cutting systems and press brakes based on innovative automation, software, and service solutions is key to achieving the comprehensive digitalization of the sheet metal processing industry.

Bystronic's operational headquarters are located in Niederönz, Switzerland. Additional development and production sites are located in Sulgen (Switzerland), Gotha (Germany), Cazzago San Martino and San Giuliano Milanese (Italy), Tianjin and Shenzhen (China), and Hoffman Estates (USA). We are active with our own sales and service companies in more than 30 countries and are represented by agents in numerous other countries.
